

About Dosh

For more than 15 years, Dosh has provided personalised support to people with a learning disability.

We believe that people with a learning disability should be able to use their own money in the way that they want, for what they enjoy.

Money can be a difficult thing for anyone to manage, but when you have a learning disability there are additional challenges. For example, around understanding financial decisions or contracts, keeping your money safe, paying bills or managing your benefits.

Dosh is here to give people the information and support they need to have as much independence and control as possible over their money.

Dosh provides advocacy, appointeeship for benefits, account management and money checks - as well as offering support, guidance, and training.
